TO WHOM IT MAY CONCERN

Subject: Letter of Recommendation – Ziyang Long

I am an advisor of studies at Glasgow College UESTC and employed by the University of Glasgow. I have known Ziyang Long since the 2nd academic year.

Ziyang Long has achieved a grade point average (GPA) of 18.300 under the twenty-two point system and is in the top 25 percentile of the 2021 undergraduate graduates at the Glasgow College UESTC.

In addition to the core technical engineering courses, our students are offered many opportunities to improve their professional skills. To this end, several courses such as 'Engineering Career Skills (ECS)', 'Engineering and the Law – New production creation and business plan', and 'Engineering Project Management and Finance (EPMF)' are integrated into our degree programme. These courses ensure students develop essential knowledge and understanding of engineering skills, economics, ethics, and project management. Ziyang Long's performance on these courses was very good, across which he obtained an average grade of B1.

Ziyang Long and his teammates were tasked with designing an "Autonomous Robot" in the Team Design Project and Skills (TDPS) course. He made an excellent contribution to the team's performance during the competition and obtained a grade of A4 in this course.

All assessments and formal teaching at the College are conducted in English. The students are required to take an official IELTS (International English Language Test System) test or an equivalent assessment set moderated by the University of Glasgow. Ziyang Long has achieved the English language level across all four skills required for graduation.

I strongly recommend Ziyang Long for acceptance to the graduate programme at your university.

Yours sincerely,

Dr Oluwakayode Onireti, Advisor of studies
